

Timely medication delivery

Providing after hours backup and emergency support

When inmates require pharmacy services after hours or in an emergency, InMedRx is here to help. Our back-up pharmacy solution is powered by a network of over **70,000 retail pharmacies**, providing convenient access to correctional facilities nationwide. Our proprietary network of **over 3,000 couriers is on call 24/7** to deliver emergency medications directly to your correctional facility within hours of your order.

In addition to the ease and convenience of our program, InMedRx can save you **30-40 percent** on retail pharmacy bills, providing significant cost savings while helping you to provide appropriate clinical care.

Well-timed deliveries result in medications being administered more quickly, helping to reduce liabilities and enabling staff to focus on other duties.

The InMedRx backup pharmacy program is administered quickly and easily so you can start saving today.
